## Education

2018 - 2020

### Master's degree in transcultural design • China Studio, Shanghai

Partnership with the Fine Arts College of Shanghai University. Studied local behaviors, designed user-centered solutions adapted to the Chinese market.

2016 - 2018

### Bachelor's degree in interaction design • Ecole de Design Nantes Atlantique

Designed user interfaces, experiences and services. Familiarized myself with coding, developed meaningful projects in their entirety.

2015 - 2016

### Foundation year in design • Ecole de Design Nantes Atlantique

Acquired basic skills in product, space, graphic and interaction design.

2012 - 2015

### High school diploma with honors • Lycée de l'Albanais

Specialized in French literature, foreign languages and philosophy.

## Design experience

May 2020 / 3 months

### Interaction design intern • Creative Capital, Shanghai

Proposed interaction design concepts for a luxury kids clothing store. Worked on the user experience for a Shiseido booth and provided a complete graphic design system. Currently designing and developing a website for the agency.

February 2020 / 3 months

### Interaction design intern • BYTON, Shanghai

Worked on the in-car welcome scenario, using motion and interaction design to propose innovative directions aligned with the brand image. Developed an interactive window concept for the Shanghai BYTON store to connect passerbys with the car in a playful and shareable experience.

October 2018 / 4 months

### Interaction design intern • Sina Retail & Image, Shanghai

Designed visual identities, illustrations and animations for various brands. Created and launched a website for a new company. Proposed interaction design solutions in retail. Did market research and analysis of competitors.

July 2017 / 4 months

### UI/UX design intern • Naoned, Vertou

Created user scenarios, wireframes, and designed interfaces for a archival data management software. Collaborated with developers, carried out user tests and design workshops with clients to customize their future software.

## Recent projects

### 你吃了吗?

An alternative communication medium for Chinese translocal families. Designed to relieve homesickness and sustain relationships.

### Irregular

A wooden game encouraging depressive patients to do daily tasks. Based on Cognitive Behavioural Therapy.
